EXPERIENCE

Eyeonit - Product Design (UI/UX)

Jan 2019 - Current

Working in an Agile product team on software development projects for Telstra. Initiated kickoff meetings with developers for new tasks from backlog.

Worked closely with the Product Management team on productising new projects/technologies.

Championed a Design Thinking approach and facilitated Design Sprint workshops to new projects.

Retail Express -UI/UX Design

Sep 2014 - Sept 2018

Workshopped new features and how they would impact users. Communicated regularly with the customer experience team to prioritise UX issues.

Designed a set of scalable layouts that focus on different verticals within the retail industry and reusable components to be used in building eCommerce websites.

Punters.com.au - UI/UX Design

Jun 2013 - Apr 2014

Working in an agile environment on new features needing to be shipped very quickly based on users needs.

Ongoing work including website UI, brand development, responsive/mobile site, app design, and general design assets.

Eyedea - Digital Design

Apr 2011 - Jun 2013

Interpreting client briefs and creating high fidelity design concepts for custom development solutions. Researching best practices for design and front-end development.
